Full Stack Developer

PROFESSIONAL SUMMARY

Full Stack Developer with expertise in React.js, Django, PHP,C# and REST API,FAST API development. Experienced in building scalable, high-performance applications and delivering end-to-end solutions at Qonkar Technologies. Skilled in AI integration, including Large Language Models (LLMs) and computer vision for real-time intelligent systems

TECHNICAL SKILLS

- **Frontend Development:** HTML5, CSS3, Tailwind CSS, JavaScript , React.js RESTful API integration
- **Database & Backend Tools:** Python Django PHP C# NodeJS (Basic)MongoDB(Basic) MYSQL SQLite Postgre SQL Server
- **Other Tools:** Git/GitHub,Docker, CI-CD Pipeline ,AWS , Responsive Design,
- **AI Automation** OpenAI Agents SDK,Vector Database.
- **Soft Skills:** Communication, Teamwork, Adaptability, Time Management, Creativity Leadership

PROFESSIONAL EXPERIENCE

Software Engineer Intern

QonkarTechnologiesPvt Ltd |Nawabshah| May2025–Aug2025

- Contributed to full-stack web development using HTML, CSS, JavaScript, React.js, Python, and Django
- Enhanced responsive React.js UI components to improve user engagement and cross-device compatibility

Front -End Developer Intern

Nuexus Technologies | Remote | November 2024 -December2024

- Developed responsive UI layouts and fixed front-end issues, reducing rendering problems by 30% and improving cross-device compatibility.
- Collaborated with team members to develop React.js-based frontend applications and improve modern frontend development skills.

PROJECTS

Final Year Project: A Deep Learning Approach For Real Time Face Detection And Automated Notification System

- Developed a real-time computer vision system for student detection that sends automated arrival alerts to parents
- Enhanced school security and collaboration between administrators and parents through an AI-based monitoring system
- Built the system using YOLOv8, DeepFace, Python, and Django for real-time face detection and recognition

Thalassaemia Centre NawabShah Website

- Developed and deployed a multi-page Thalassemia Centre website with structured routing and reusable components.
- Implemented responsive layouts for desktop and mobile devices, improving accessibility and user experience.
- Built the application using React.js for frontend and Python Django for backend development

Jamia Software

- Designed and implemented new software modules using Python and Django, enhancing Jamia Software functionality
- Collaborated on backend development, ensuring scalable architecture, efficient database operations.

AI Based Car Guidance RAG Agent

- Developed an RAG-based AI agent to guide users on car maintenance using OpenAI Agents SDK, GEMINI API, vector databases, and Streamlit.

Inventory Management System

- Designed and developed an Inventory Management System to track and manage stock levels using HTML, CSS, JavaScript, and PHP

EDUCATION

Bachelor of Computer Science (CGPA: 3.55/4.0) Quaid-e-Awam University of Engineering, Science & Technology | 2022 – Continue..

ACHIEVEMENTS

Author and presenter of a research paper on real-time AI-based face detection at the International Conference CSET-26, QUEST Nawabshah

CERTIFICATIONS

GEN-AI Application Developer

ASPIRE PAKISTAN | 2025

WEB & APP Development ASP.NET ,PHP

CYBER VISION INTERNATIONAL | 2024
